# **AMSOIL** Synthetic Motor Oils

## **Heavy-Duty Diesel Applications**

AMSOIL synthetic diesel oils are formulated to significantly reduce operating temperatures. Their synthetic formulations reduce friction and provide excellent wear protection for hard-working, hot-running diesel engines. AMSOIL offers diesel oils suitable for older diesel applications and modern diesel applications equipped with emissions control devices.

- Inhibit deposit formation
- Resist oil consumption
- Optimize fuel economy
- Control soot

## **Gasoline and Light-Duty Diesel Applications**

AMSOIL synthetic motor oils are designed to improve performance in gasoline and light-duty diesel motor homes. AMSOIL offers motor oils formulated for 25,000-mile/one-year drain intervals; 10,000-mile/six-month drain intervals and OEM-recommended drain intervals.

- Minimize wear
- Excel in temperature extremes
- Optimize fuel economy
- Extend drain intervals

## **Formula 4-Stroke® Synthetic Small Engine Oil**

AMSOIL Formula 4-Stroke Synthetic Small Engine Oil is a robust formulation designed for high-temperature, severe-service operation of small engines where routine maintenance is often difficult or infrequent. It is formulated with premium synthetic base oils that exceed both 10W-30 multi-grade and SAE 30 straight-grade viscosity requirements.

- Robust stay-in-grade performance
- Perfect for RV generators
- Outstanding all-season protection
- Commercial-grade protection

## **AMSOIL** Synthetic Gear Lubes

AMSOIL synthetic gear lubes afford outstanding wear protection, which helps extend gear life by protecting critical parts from deposits and surface distress, even in sustained high-temperature service. AMSOIL synthetic gear lubes can help increase fuel economy by reducing friction far better than petroleum gear lubes and offer outstanding rust and corrosion protection for stored motor homes.

**AMSOIL Long Life Synthetic Gear Lube and 80W-90 Synthetic Gear Lube** are engineered to protect gears better than conventional gear oils, effectively maintaining viscosity for maximum wear control.

**AMSOIL Severe Gear® Synthetic EP Gear Lube** is specifically engineered to provide extra protection for high-demand applications, including trailer towing and heavy hauling.

## **AMSOIL** Synthetic Automatic Transmission Fluids

AMSOIL synthetic automatic transmission fluids are chemically engineered to provide exceptional lubricating protection and substantially longer service life than conventional petroleum fluids, protecting transmissions from the tremendous internal heat generated in the demanding, severe operating conditions of motor homes. They resist oxidizing in temperatures that oxidize conventional automatic transmission fluids to protect clutches, planetary gears, valves, pumps and seals. AMSOIL ATFs' excellent low-temperature fluidity provides dependable starting, smooth shifting and excellent fuel economy in cold temperatures.

**Multi-Vehicle Synthetic Automatic Transmission Fluid** is a multifunctional fluid that is also recommended for power steering applications.

**Fuel Efficient Synthetic Automatic Transmission Fluid** is engineered to meet the requirements of GM®, Ford® and Toyota® where low-viscosity oil is required.

**Torque-Drive® Synthetic Automatic Transmission Fluid** is engineered for Allison® transmissions requiring fluids recommended for the TES 295 specification.

## **AMSOIL** Synthetic Greases

Greased bearings and linkages on RVs endure heavy loads, while wheel bearings, U-joints and suspension points are extremely susceptible to the harmful effects of dirt, water and mud.

AMSOIL synthetic greases are especially suited for all types of motor home applications. Their tough synthetic formulations provide outstanding protection against friction, heat and wear, even in high-stress applications. AMSOIL synthetic greases offer superior low-temperature pumpability, resistance to water washout and thermal and oxidative stability.

## **AMSOIL** Heavy Duty Metal Protector

AMSOIL Heavy Duty Metal Protector is a heavy-duty spray lubricant fortified with special rust and corrosion inhibitors. It penetrates and adheres to metal surfaces, leaving a dry, long-lasting wax-like protective coating that doesn't attract dust. It also works well as an undercoat, preventing rust and eliminating squeaks.

## **AMSOIL** Filtration Products

### **AMSOIL Ea® Air Filters**

Motor homes are exposed to high amounts of dust and dirt, so good air filtration is vital to keeping abrasive particles from entering the engine and destroying precision components. AMSOIL Ea Air Filters rank among the most efficient filters available for motor homes. Their synthetic nanofiber media removes five times more dust than traditional cellulose filter media alone and 50 times more dust than wet gauze filter media. AMSOIL Ea Air Filters have a service life of 100,000 miles or four years, whichever comes first.

### **AMSOIL Ea® Oil Filters**

AMSOIL Ea Oil Filters feature advanced full-synthetic filtration media, ranking them among the most efficient filters on the market. AMSOIL Ea Oil Filters have far greater capacity than competing filter lines. When used in conjunction with AMSOIL synthetic motor oils, Ea Oil Filters have a maximum recommended service life of either 15,000 miles or 25,000 miles, depending on the application.

### **AMSOIL Ea® Heavy-Duty Extended-Life Oil Filters**

AMSOIL Ea Heavy-Duty Oil Filters feature full-synthetic media with an average filtering efficiency of 98.7 percent at 20 microns. They trap a larger percentage of small, wear-causing particles than less-efficient cellulose filters for maximum engine protection. They provide extended service intervals that coincide with the maximum drain intervals of AMSOIL synthetic motor oils and cost less than competitive extended-service oil filters.

*AMSOIL also carries Donaldson® air and oil filters to complement the AMSOIL Ea filter line.*

## **AMSOIL** Fuel Additives

Whether crawling up a steep mountain pass or merging into traffic on an interstate, AMSOIL fuel additives provide RVs with added zip. Use P.i.® Performance Improver, Dominator® Octane Boost and Gasoline Stabilizer for gasoline engines; Diesel Concentrate, Diesel Cold Flow Improver, Diesel Concentrate Plus Cold Flow Improver, Diesel Recovery and Cetane Boost for diesel applications and Quickshot® for gasoline-powered small engines.

AMSOIL fuel additives improve combustion efficiency for easier starting, smoother idling and reduced exhaust emissions. High-quality AMSOIL fuel additives, promote a trouble-free fuel system, improved fuel economy and more power.

## Mothers® Automotive Appearance Products

AMSOIL offers premium Mothers automotive appearance products that include everything needed to clean, polish and care for RVs. The Mothers product line is divided into distinct categories: Reflections®, FX™, Power Products, California Gold® and Mothers Original.

**MOTHERS®**  
Polishes • Waxes • Cleaners

### **BriteSide® Miracle Wash®**

BriteSide Miracle Wash is a unique dry car wash that delivers outstanding performance and quick, easy and economical application. Its special formulation lifts dirt, holds it in suspension and shields surfaces from abrasion. Miracle Wash repels dust and light dirt and protects automotive finishes from the sun's ultraviolet rays.

Contact your AMSOIL Dealer for more information on AMSOIL products or to place an order. You may also order direct by calling AMSOIL INC. at 1-800-956-5695 and providing the referral number listed here. ▼
